

## Save Big with the Re-Launched VPS Hosting Plan Builder from myhosting.com

myhosting.com, an established provider of Web Hosting, Hosted Exchange Email and Virtual Server hosting Services has announced the re-launch of its Custom VPS Plan Builder, re-designed to help make it easier for customers to select an ideal hosted solution that perfectly fits their needs.

**Toronto, ON — July 21, 2011:** Award-winning [VPS and VDS hosting provider](#) myhosting.com has re-launched their Custom VPS Hosting Plan Builder. The newly re-launched tool includes a visual interface and an updated set of interactive features that put customers in control. With the re-launched Custom VPS Hosting Plan Builder, clients can customize every aspect of their server and hosting plan.

Product Manager Jeremy Adams explained, “Our newly re-launched [Custom VPS](#) ‘Wizard’ is a virtual technology buffet with an intuitive visual interface that allows customers to choose a la carte services quickly and easily.” Adams added, “To experience all the benefits of VPS and VDS hosting, it’s important for our customers to be able to mix and match each service and add-on to fit their current hosting needs.”

To begin, customers may choose between a list of preset packages, discount VPS hosting packages and a la carte plans, including options for small businesses, resellers and web developers. Users can further customize server specs by adjusting their Operating System or Virtualization Platform, increasing disk space, RAM, CPU, bandwidth, IP addresses, adding storage and backup options, all with familiar sliders, check boxes or radio buttons. Customers can also add [VPS control panels](#) including Plesk and cPanel, billing software for resellers such as WHMCS or Plesk Billing, and a complete selection of add-ons, including Fantastico, Plesk Power Pack and RVSkin.

myhosting.com has received several industry awards for their innovative and comprehensive VPS services, including the best VPS Hosting award from Web Host Ranking and the best Plesk Linux VPS award from VPS Host Reviews. myhosting.com provides VPS hosting for Microsoft Hyper-V clients using Windows 2008 R2 as well as CentOS and Debian Linux operating systems that use Parallels Virtuozzo Containers.

Stephen Nichols, the VP of Online Sales, commented on several more benefits of the Custom VPS Hosting Plan Builder saying, “Giving customers the freedom to choose their level of service and virtual server specs has a number of financial benefits. We have made it accessible for anyone to buy exactly what they need with real-time totals that show buyers a breakdown of their costs and savings.”

myhosting.com offers customers a complete selection of scalable VPS hosting packages with flexible features, so customers can select their level of service, on their own terms.

Build a customized plan today at <http://myhosting.com/virtual-server-hosting/custom-vps.aspx>, and receive your first month of VPS Hosting for only \$1 by using the promotion code [VPSPressRelease](#). This offer is good until August 31, 2011 and does not apply to any add-ons included with your order.
